EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gregory P. Bondarenko on October 24, 2005.

The application has been amended as follows:

Specification, page-1, line 5, the phrase "(now pending)" has been changed to - - now U.S. Patent No. 6,872,277- -.

Specification, page-1, line 6, the phrase "(now U.S. Patent 6,596,361)" has been changed to - -now U.S. Patent No. 6,596,361- -.

Claims 2 and 4, respectively, line 3, before "a label", the phrase - - a continuous web of - - has been inserted.

Claims 2 and 4, lines 4 and 7, respectively, before "adhered", the word - - adhesively - - has been added.

Claims 2 and 4, respectively, line 13, before "wherein", the phrase - -such that the lenticular assemblies are located between said release liner and the label stock web, - - has been inserted.

Claims 2 and 4, respectively, line 13, the phrase "a window and" has been replaced by the phrase - -at least one window and each of - -.

Declaration

The declaration is defective because contains date for continuity to U.S. Applicaton Serial No. 10/237,318 as September 29, 2002 and it should be corrected to read - - September 9, 2002- -. A new declaration is required as declaration cannot be corrected.

2. The following is an examiner's statement of reasons for allowance:

A review of applicants' arguments made in the amendment filed on August 10, 2005 and a review of the instant amended claims has convinced the examiner that the claims are allowable over the applied prior art of record. The prior art fails to teach a continuous web of lenticular assemblies comprising a plurality of lenticular assembly adhesively adhered to a continuous web of label stock, wherein the label stock defines at least one window through which each of said lenticular assembly are viewable. Also, no evidentiary support could be provided to support the position that the instant claimed invention would have been obvious to one having ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nasser Ahmad whose telephone number is 571-272-1487. The examiner can normally be reached on 7:30 AM to 5:00 PM, and on alternate Friday.
